# CONCETTO

Concetto is an enduring process of fostering, shaping and enhancing individuals' skills, knowledge and interests to ascertain their maximum efficacy and compliance. The person who aces this event will be awarded the prestigious title of Mr./Ms. Rendezvous X9. There are multiple rounds that will assess and will let you explore every domain within your personality.

Your presence of mind, your vivid imagination, and the creativity will get you a loud applaud. Your oratory skills will be the icing on the cake. Make sure you give tough competition to your fellow mates and outshine every other to win this exalting title.

So tighten your seat belt and get ready for this enthralling experience. The further rounds will be unfolded slowly and gradually as the event goes on. Stay up to date with events as well as world affairs. This event is eliminatory at every coming round and yes, make sure each one of you participates.

Brace yourself to experience excitement, fun, and challenges all together.

# **CODERS' CUP**

*Learning to code is useful no matter what your career ambitions are*

The event Coders' Cup is aimed at strengthening the above mentioned quote. This event brings out a pattern of thoughts and rationality of your thinking. Learning to write programs stretches your mind, and helps you think better, creates a way of thinking about things that are helpful in all domains. This will also help you evaluate your current situation among your peers.

- This event consists of two rounds

**Preliminary Round** - This round is a Technical Aptitude Test. As a strong building cannot be built on a weak foundation so does your programming concepts. All students must attempt. The selected candidates will move to the final round.

**Final Round** - This round will be like that of competitive.. programming. The student who solves all the problems in minimum time will be declared as the winner.

# SYNERGIA

*Make slides that reinforce your words, not repeat them*

This is a presentation based event where students have to participate in a group of three or four. A wide array of topics would be provided from which students have to pick a topic to present. This round will be executed in two steps.

**Prefatory Round** – In this round, the student has to submit an abstract for the topic he/she has chosen for the event. The abstract must adhere to the IEEE standard and should strictly lie under 250 – 300 word range.

**Main Round** – The selected teams have to prepare for an eight minute presentation. The winning team would be decided by the notable jury members.

# CIPHER

*Cipher is a riddle wrapped in a mystery inside an enigma  
– You have to find the key*

Cipher is a hostel based team event where each team has to find the key or the answer to the picture based riddle. Teams will be made on a random basis. This event will continue for a few days before the final day. The team that solves the riddle in the least time possible will be awarded 10 points, the team solving second will be awarded 9 points and so on. In the end, the team getting the highest point will be declared as the WINNER. Several hints would be provided from time to time if teams aren't able to crack the code. So make the best use of your creativity, imagination and of course, the technology.

# VERSATALIA

*Hide not your talents, they for use were made. What's a sundial in the shade*

It's overwhelming to imagine life without entertainment. So comes the fun event where you will be awarded for being the most entertaining person. So break all the shackles that restrict you and grab your opportunity of being the coolest! You might be surprised by the act that one of your colleagues pulls as **there's more to him than meets the eye**

This event requires EACH ONE of you to prepare a performance, either individually or in groups

You can be called at random on any day when other events are going on to show your performance. So be prepared to surprise and be surprised.
